## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Claims 25, 35, 39, 42, 44-47, and 51 have been amended as follows:

- (1) Claim 25, line 1, "amended" has been replaced by --currently amended--.
- (2) Claim 35, line 1, "amended" has been replaced by --currently amended--.
- (3) Claim 39, line 1, "amended" has been replaced by --currently amended--.
- (4) Claim 42, line 1, "amended" has been replaced by --currently amended--.
- (5) Claim 44, line 1, "amended" has been replaced by --original--.
- (6) Claim 45, line 1, "amended" has been replaced by --original--.
- (7) Claim 46, line 1, "amended" has been replaced by --original--.
- (8) Claim 47, line 1, "amended" has been replaced by --currently amended--.
- (9) Claim 51, line 1, "amended" has been replaced by --currently amended--.

### ***Allowable Subject Matter***

2. Claims 25, 35-47, and 51 are allowed.
3. The following is an examiner's statement of reasons for allowance:

With regard to claim 25, although the prior art discloses a relocatable security inspection system comprising a support beam section having a first end and a second end, a first leg section pivotally connected to the first end of the support beam section, and a second leg section pivotally connected to the second end of the support beam section, it fails to teach or fairly suggest that the relocatable security inspection system further comprises a locking mechanism disposed on at least one of the support beam section and the first and second leg sections for detachably connecting the inspection system to a delivery vehicle as claimed.

With regard to claims 35-38, the prior art fails to disclose a method of deploying a security inspection system from a delivery vehicle to an inspection site as claimed.

With regard to claims 39-41, the prior art fails to disclose a method of deploying a security inspection system from a delivery vehicle to an inspection site as claimed.

With regard to claims 42-46, although the prior art discloses a relocatable security inspection system comprising a frame having first and second leg sections spaced apart from one another and a self-propelling drive attached to the frame for moving the frame, it fails to teach or fairly suggest a processor that provides instructions to the frame to correct its path of travel based on information from the light sensor as claimed.

With regard to claim 47, although the prior art discloses a relocatable security inspection system comprising a frame having a first and second leg sections spaced apart from one another, it fails to teach or fairly suggest that the frame is collapsible via a plurality of hinges as claimed.

With regard to claim 51, although the prior art discloses a method of inspecting an object comprising the steps of deploying an x-ray imaging scanner from a delivery vehicle into an imaging position and self-propelling the scanner relative to the object to image the object, it fails

to teach or fairly suggest the step of regulating the speed and/or alignment with a light source, a light sensor, and a processor as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Response to Arguments***

4. Applicant's arguments filed 03 March 2005 with respect to the drawings have been fully considered and are persuasive. The objections of the drawings have been withdrawn.

5. Applicant's arguments filed 03 March 2005 with respect to the specification have been fully considered and are persuasive. The objections of the specification have been withdrawn.
